#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

1. According to a preliminary amendment filed on Jan. 9, 2004, the applicants have canceled claims 1, 2, 4-12 and 14-17 and furthermore, have amended claims 3 and 13.
2. Claims 3 and 13 are now pending in the application.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 13, it is not clear what is being treated? Is it a mammal, human, animal or something else?

In claim 13, the term ---infectious diseases---- is indefinite since specific diseases are not defined. Is it a bacterial infection, viral infection, fungal infection or some other type of infection?

In claim 13, the term ---characterized by ---is vague. The applicants are suggested to delete it or change to ---comprising or wherein--- whichever is appropriate.

### ***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 3 and 13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Mitsuyuki (JP 2714597, cited on applicants form 1449 ).

Mitsuyuki discloses optically active pyridonecarboxylic acid derivatives, their salts and hydrates thereof having antimicrobial activity for treating bacterial infections( see claims 1-7 on pages 2-4 of english translation ). The pharmaceutical composition comprising compound 41 ( see page 88 ) or treating bacterial infections using compound 41 disclosed by Mitsuyuki clearly anticipate the instant claims.

***Double Patenting***

6. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

7. Claims 3 and 13 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 3 and 13 of copending Application No. 10/275,972. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is (571)272-0678. The examiner can normally be reached on Monday through Friday, 8:30 A.M. to 5:00 P.M..
